AMERICAN AND FOREIGN PATENTS

R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837,)
NO. 76 STATE, OPPOSITE KILBY ST.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.
CHAS. MASON," *Commissioner of Patents.*

"I have no hesitation in assuring Inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

NEW AGRICULTURAL SETTLEMENT.

TO ALL WANTING FARMS,
A RARE OPPORTUNITY IN A DELIGHTFUL AND HEALTHY CLIMATE 25 MILES SOUTHEAST OF PHILADELPHIA, ON THE CAMDEN AND ATLANTIC RAILROAD, NEW JERSEY.

An old estate, consisting of several thousands of acres of *productive soil* has been divided into Farms of various sizes to *suit the purchaser*. A population of some *Fifteen Hundred*, from various parts of the middle States and New England have settled there the past year, improved the places, *and raised excellent crops* The price of the land is at the low sum of from $15 to $20 per acre, the soil is of the best quality for the production of *Wheat, Clover, Corn, Peaches, Grapes and Vegetables,* IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are are made easy to secure the rapid improvement of the land, which is only sold for *actual improvement*. The result has been, that within the past year, some *three hundred houses* have been erected, two mils, one steam, four stores, some forty vineyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may preceive from its location is the

BEST IN THE UNION.

Produce commanding double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settlers has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in *a settled country where every improvement of comfort and civilization is at hand.* He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, [illegible] and will enjoy an open winter, and delightful climate, where fevers are utterly unknown.—The result of the change upon those from the north, has generally been to restore them to an excellent state of health

In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. [illegible] the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvement and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, THE RAILROAD COMPANY GIVES A FREE TICKET FOR SIX MONTHS, AND A HALF-PRICE TICKET FOR THREE YEARS.

THE TOWN OF HAMMONTON.

In connection with the agricultural settlement, a new and thriving town has naturally arisen, *which presents inducements for any kind of business, particularly stores and manufactories. The shoe business* could be carried on in this place and market to good advantage, also cotton business, and manufactories of *agricultural implements, or Foundaries for casting* [illegible] The improvement has [illegible] and permanent [illegible] Town lots of [illegible] not sell small ones, as it [illegible] improvement of the place, can be had from $100 and upwards.

BY GEORGE T. HAMMOND,
At 123 Thames Street:

THURSDAY, OCT. 13, 1859.

The Death of Senator Broderick, of California.

Another victim has been offered upon the altar of the so-called code of honor; another murder has been committed in cold blood; Society and public feeling have again been outraged, and the murderer, as usual in such cases, will go unhung. The following are the harrowing particulars of the duel between Senator Broderick and Judge Terry in California, as referred to in our paper yesterday:

The duel took place in a small valley, 10 miles from Merced Lake. At 6 1-2 o'clock Broderick and Terry arrived upon the ground, attended by their seconds and physicians—Hon. J. C. McKibben and Mr. Coulton for Broderick, and Calhoun Benham and Thos. Hayes for Terry. On descending from the carriages the party seemed to be in the best of spirits, neither appearing anxious or nervous as to the result. About half an hour was occupied in their arrangements; 10 paces were marked off, and the principals took their places. The seconds divested them of their outside coats, white collars, and other articles which might present prominent targets, also of their watches and the coin in their pockets.

One of the seconds then read aloud the *Code Duello*, which occupied a short time. Mr. Coulton then addressed the two gentlemen, saying he wished it to be understood that he should count 'one,' 'two,' after that the word 'fire,' after which he should say 'stop;' no shot must be fired after that.

During this time the principals maintained their positions and listened with composure to these details. Judge Terry stood with his head thrown slightly back, looking at his antagonist. Each held a pistol in his hand, pointed to the ground. Each were dressed in black clothes and wore a slouched hat. Mr. Broderick stood erect, but with his head rather down. The position of the two was somewhat different. Judge Terry maintained that of a practiced duellist, presenting only the edge of his person, keeping his left hand and shoulder well behind him. Mr. Broderick on the contrary, although at first assuming a somewhat similar position to that of Terry, seemed to prefer a careless and less constrained one, and gradually presented more of his body to the fire of his opponent; he held his pistol rather awkwardly and seeming to feel this himself he once or twice turned the wrist of his pistol arm to the right with his left hand as though endeavoring to comply with some prescribed directions previously given him. From that time he did not raise his eyes until the word was given to fire. Once his right foot got a fraction beyond the line when Mr. McKibben replaced it. The bearing of Terry, although he assumed a more practiced and motionless attitude, was not one jot more that of an iron-nerved man than that of Broderick.

At a quarter before 7 o'clock, Mr. Coulton pronounced the words, "are you ready?" was uttered by Broderick. Immediately after "fire—one—two" was pronounced in moderately quick time. Broderick raised his pistol and scarcely brought it to an angle of 45 degrees from its down position, when owing to the delicacy of his hair-trigger, it was discharged, the ball entering the ground within four paces of him.

Terry fired a few seconds later, taking deliberate aim. There was a perceptible interval between the two reports. At that instant Broderick was observed to clasp his left hand to his right breast, when it was seen that he was wounded. He reeled slowly to the left, and before the seconds could reach him he fell to the ground, his right leg doubling up under him, but still grasping his weapon. Terry upon discharging his pistol, held his pistol still smoking in his hands, but did not move from his position.

Broderick's seconds ran to his aid, and Dr. Locker commenced to stanch the wound. The ballet entered just forward of the nipple and lodged, as was supposed, under the left arm. He was soon afterwards borne into town in his carriage. Previous to this Terry and his friends left the field, driving rapidly into town, and started at once from the North Beach, where a boat was waiting, and proceeded to Oakland, where they took a private conveyance to Benecia. On their arrival at Benecia, they took an overland conveyance to Sacramento.

Mr. B was taken to the house of Leonidas Haskill, at Black Point, where he was visited during the day by hundreds of his friends. He was able to speak during the afternoon, but owing to his wounded lungs his articulation was generally indistinct and unintelligable."

The correspondent of the *Cincinnati Times* says at 15 minutes past 9 this morning (16th) Mr. B. breathed his last. Gloom and sorrow pervade the whole community. Flags are at half-mast, union down. The stores are closing, and even the private houses are dressed in mourning.

The New York *Tribune* pay the following tribute to the personal character of Mr. Broderick.

"In social life Mr. Broderick was one of the most exemplary men that could be found in any country. No clergyman, no philanthropist, however proud on the score of morality, could feel more so than Mr. B. He was never known to enter a gambling den or house of ill-fame; and in business transactions or personal dealings, his word was relied on as implicitly as though he had entered into the most solemn written obligation for their performance. For these traits of character Mr. B. was a great favorite, and among no class of persons was he stronger than with the clergymen of all denominations, who looked upon him as a strictly moral man.

Mr. Broderick leaves no relative behind."

Jesse Hathaway of Savoy, Mass., realized from 11 hens, between Feb. 1, and Sept. 25, 133 dozen and 4 eggs, and also raised three broods of chickens.

Local Facts and Gossip.

that we are to [illegible] as a steam-tug in *Newport*, but that one is very much needed here. With a hundred miles of adjacent coast, where every year more or less vessels drive ashore and "leave their bones," we have nothing in the shape of a wrecking craft, with the exception of what is improvised, as occasion demands, by our hardy pilots and fishermen, and these are of such a nature as not to be able to render efficient aid at the critical moment when such aid would be instrumental in saving a vessel and cargo from destruction.

In the fogs that prevail in this vicinity at all seasons of the year, vessels are not unfrequently compelled to drop anchor without knowing precisely in what locality they are, and sometimes get into very dangerous positions, from which it is impossible for them to extricate themselves without assistance, just such assistance as a steamer only can render.

In short there are a variety of ways, which will suggest themselves to every nautical man, in which such a vessel might be made to render invaluable service on this coast, sufficient, in fact, to pay a handsome interest on the sum invested, besides the cost of her maintenance.

It is most for the interest of the Board of Underwriters that such a craft should be located at this point, but it is most the duty of Government to station one here, and there is no doubt they would do so were the circumstances properly represented to them.

In the construction of such a craft, strength and power should be the requisites principally sought for, with a sufficient capacity to withstand the winds and waves outside our harbor.

☞ Our announcement in yesterday's paper that the sloop Shepherdess, which was got off and towed into this port Tuesday evening, would be taken on the marine railway *for repairs*, was perhaps rather premature. The vessel will probably be taken on the railway to ascertain the extent of her injuries, and be repaired or broken up, according to the condition in which she may be found. She is at present moored off the railway full of water.

There is a good deal in luck, in purchasing vessels ashore as this one was. At the time she was sold, the wind was blowing quite fresh from the southeast, with every prospect of a continuance in that quarter for some ten or twelve hours, in which case the vessel would have broken up in a very short time, as she lay broadside on on a rocky bottom, exposed to every sea that came in. But in two hours the wind hauled to the northward, and the chances of getting her off were increased several fold. The bottom must be damaged quite seriously, though to what extent is not ascertained.

The schooner Exile, which was ashore at the same time, sailed yesterday morning for New York, without repairing.

COOKING TOMATOES.—Mr. A. Mott, a Frenchman publishes the following directions respecting the cooking of tomatoes. We publish the recipe not because it is the best, but for variety's sake. We have always found tomatoes to be good when cooked according to any receipt; and good eating if not cooked at all:

"Few people understand how to treat tomatoes. Some eat them raw; others have them slightly boiled with bread (worthless stuff); some take off the skin, and leave the seeds. [illegible] per cent, of water from the tomato, you will obtain from it nothing but half nauseous porridges, never that delicious, tempting pulp, whose highly developed fragrance renders it so pleasing to the nostril, nice to the taste, sharp to the teeth and healthy to the stomach.

Take half a peck of ripe, washed tomatoes, cut them open only by halves, scratch out the seeds, preserve the skin; have a skillet or any earthern ware dish, place it over a brisk fire, with an ounce of butter and from one half to one pound of sliced, fat ham; twenty minutes after, put in the tomatoes, pepper, a little salt; let boil fast for about one hour, diminishing the fire as the water disappears; let it simmer for three hours or more on hot ashes, to the consistency of half liquid, half compact pulp; turning often with a wooden spoon to prevent any sticking at the bottom; cover the skillet when the fire goes down; all is right.

Lightning Rods.

As we have inquiries almost every week about putting up lightning rods, we will therefore give a general answer to all who are in pursuit of such information. In putting up a rod, care must be observed to have all the joints perfectly connected; for it has frequently happened that the lightning has passed from ill jointed rods into buildings. The rod should be clamped to the building with brackets of varnished dry wood or glass insulators, and its lower end should always be carried down into damp soil. Care must be exercised that no masses of metal in the building should be situated near the conductor, because if such a mass be greater than that of the rod, the lightning is liable to pass from the latter to the former. The point of the conductor should be carried about four or five feet above the highest chimney, and if it is of iron, it should be one-half an inch in diameter for a building 40 feet high.—*Scientific American.*

MINNESOTA PRESERVES.—Take good full grown tomatoes, just before they begin to turn, slice in three pieces, (discarding the ends) prepare your syrup the same as for other fruit, pound for pound; let it come to a boil, drop in the fruit, simmer till clear, season with lemon; then remove your fruit, boil down the syrup to the consistency of molasses, and when cool pour over the fruit. This mode of preserving tomatoes has been pronounced superior to any other.

It is stated that the [illegible] contemplate the raising of a fund of [illegible]000, portion of which is to be devoted to the building of a Masonic Temple at the seat of the Federal Government, and the revenue to be derived from it to be applied to the purpose of establishing a house for the support and education of the orphan children of deceased Masons.

Four Days Later from Europe.

By the arrival of the steamship Indian [illegible] It was stated that the Conference at Zurich was again progressing.

The repairs on the Great Eastern were going actively forward at Portland, but it was considered doubtful whether the ship could be got ready for sea during the month of October.

The *London Times* has another editorial on the new boundary difficulties with the United States. It laments that the former treaty should have left any pretext for the earliest possible settlement. It points out the absurdity of going to war for so trivial a matter, but argues that England must, nevertheless, assert her rights. The article concludes with a description of the intimate commercial and other relationships existing between the two countries, and the lamentable effects which war would have upon both. The Paris correspondent of the *London Spectator* says there is still a hitch in the peace negotiations. Austria persists in keeping an Austrian army in Venetia. When this difficulty has been surmounted, the treaty will be signed by Austria and France, and a congress will be held at Brussels.

The Canton mail, with dates from Hong Kong to August 10th, had reached London. Nothing of any moment had occurred since the affair at the mouth of the Peiho.

The annual meeting of the American Board of Foreign Missions commenced in Philadelphia on Tuesday. The Treasurer's report shows the expenses of the last year to be $419,289; receipts $350,915; debt $66,374. The condition of the missions in various parts of the world was shown to be generally prosperous. Thirty-six persons have entered upon the missionary work within the last year, and thirteen have returned to their respective fields, after visiting the United States for a season. Twenty-six persons are under appointment in this country; but these are by no means sufficient to give a proper degree of strength and efficiency to the missions.

On Thursday evening a young German woman named Theresa Schultze, a resident of Brooklyn, N. Y., lost her life by drowning, while crossing the North River. She had been over to Hoboken with a party of five men, in a small row boat, to witness the cricket match, and in returning the boat was overturned, and Miss Schultze was lost. The men clung to the boat until it floated near the shore, and were saved.

Hugh Donohue, residing in Ludlow street, *New York*, was arrested on Thursday for attempting to murder his wife Mary. He got angry with her, and seizing a hatchet, struck her several violent blows upon the head with it. She fell senseless to the floor, when he desisted and went off. A physician was called in and pronounced her injuries very dangerous.

A few days since, a wild-cat was shot in the Ninth Ward of Milwaukie that was nearly as large as a small tiger. Stretched at full length it measured five feet, and the actual length of the body was nearly three feet. It was very lank and poor, although possessed of great muscle, and was doubtless driven from its congenial haunts by the pangs of hunger.

Little Willie Waking Up.

REV. E. H. SEARS.

Some have thought that in the dawning,
In our being's freshest glow,
God is nearer little children
Than their parents ever know,
And that, if you listen sharply,
Better things than you can teach,
And a sort of Mystic wisdom
Trickles through their careless speech.

How it is I cannot answer,
But I knew a little child,
Who, among the thyme and clover,
And the trees, was running wild.
And he came one summer evening,
With his ringlets o'er his eyes,
And his hat was torn in pieces,
Chasing bees and butterflies.

"Now, I'll go to bed, dear mother,
For I'm very tired of play!"
And he said his, "now I lay me,"
In a kind of careless way;
And he drank the cooling water
From his little silver cup,
And said gaily, "*When it's morning,*
Will the angels take me up?"

Down he sank with roguish laughter
In his little trundle-bed,
And the kindly god of slumber
Showered the poppies o'er his head.
"What could mean his speaking strangely?"
Asked his musing mother then—
"Oh, 'twas nothing but his prattle;
What can he of angels ken?"

There he lies, how sweet and placid!
And his breathing comes and goes,
Like a zephyr moving softly,
And his cheek is like a rose;
But she leaned her ear to listen
If his breathing could be heard;
"Oh," she murmured, "if the angels
Took my darling at his word!"

Night, within its folding mantle
Hath the sleepers both beguiled,
And within its soft embracings
Rest the mother and the child;
Up she starteth from her dreaming,
For a sound hath struck her ear—
And it comes from little Willie,
Lying on his trundle near.

Up she springeth, for it strikes
Upon her troubled ear again,
And his breath, in louder fetches,
Travels from his lungs in pain,
And his eyes are fixing upward
On some face beyond the room;
And the blackness of the spoiler
From his cheeks has chased the bloom.

Never more his "Now I lay me"
Will be said from mother's knee;
Never more among the clover
Will he chase the bumble-bee;
Through the night she watched her darling
Now despairing, now in hope;
And about the break of morning
Did the angels take him up.

Great Indian Remedy

FOR FEMALES.

DR. MATTISON'S INDIAN EMMENAGOGUE is a new and elegant medicine, designed EXPRESSLY FOR FEMALES. It is prepared from an Indian plant, which has been used by the natives for the same purpose for time immemorial, and is now for the first time offered to the public. A knowledge of this wondrous plant was obtained from the late SKENANDOAH, an Oneida Chief, who lived near Syracuse, N. Y., to a very great age. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of obstruction of the MONTHLY SICKNESS—even in TWENTY-FOUR HOURS, and that, too, after all other remedies have been tried in vain. This may seem incredible, but if it fail in ANY case THE PRICE WILL BE REFUNDED. It will also prevent obstructions, if taken a day or two BEFORE the monthly period, and is therefore of the greatest value to married ladies wishing to avoid the accidents to which they are liable.

PURELY VEGETABLE, CONTAINING NOTHING IN THE LEAST INJURIOUS TO HEALTH, AND MAY BE TAKEN WITH PERFECT SAFETY AT ALL TIMES.

LADIES, therefore, in want of something RELIABLE, had better send for the INDIAN EMMENAGOGUE, instead of wasting time and money in trying other things, which are ALWAYS either unsafe or uncertain, and therefore NEVER warranted as is this GREAT REMEDY. Sent by express to all parts of the country.

Sold ONLY at DR. MATTISON'S REMEDIAL INSTITUTE for SPECIAL DISEASES, No. 28 Union street, Providence, R. I.

VESPER GASLIGHT.

The cheapest and best light in use. This is the universal commendation of all who have tried it; while those who have used it longest are still more enthusiastic in its praise. There are few luxuries that afford a more satisfying pleasure than a brilliant and safe light; such an one may now be had by all. If any are inclined to be skeptical in regard to it, let them call at

No. 190 Thames Street,

and satisfy themselves. The style of fixtures resemble those of coal gas; the shape of the flame is the same, it has less flicker, is more brilliant, while it costs less than half as much. All who are in want of a beautiful light, will do well to call soon. Any who may desire it can have them put up at their rooms on trial, free from charge.

Having purchased the Patent Right for the State of Rhode Island, we are now prepared to sell VESPER GAS FIXTURES of all styles and prices. Also County and Town rights for sale. BEACH & TORBY.

F. R. ROBINSON'S
Indexical Silver Soap.

The Silver Soap is prepared especially for cleaning and polishing Silver, Plated, and Brittania Wares, and for cleaning Mirrors, Marble, Tin, &c. This is the most convenient and effective preparation for these purposes ever offered to the public. It may be used even by inexperienced help with entire safety, as it contains nothing that can possibly injure the finest plate or jewelry. For cleaning fine House Paint, Window Glass, and Carriage Mountings, it is invaluable.

Many of our largest importers and manufacturers of silver and plated ware have used this article, and have given it their unqualified approval.

Shreve, Brown & Co., (late J[illegible] B[illegible] & Co.,) of Boston, say "we can recommend it as the best article we have ever seen for cleaning plated and silver ware. It must soon be used by every family."

I have just received an invoice of this soap, which I will warrant to be as represented or the money will be cheerfully refunded. Price 12 1-2 cents per cake.

THE

GREAT WONDER

OF THE NINETEENTH CENTURY.

PROFESSOR WOOD'S HAIR RESTORATIVE.

Says the St. Louis (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, MAINE, Jan. 20, 1859.

Professor O. J. Wood & Co:

GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite grey, probably one-third white; my whiskers were of same [illegible]. Some three months since I procured [illegible] of your hair restorative, and [illegible] soon found it was proving what I [illegible]. I used it about a week. I have [illegible] procured another bottle, of which I [illegible]. I can now certify to the [illegible] the grey or white hair has totally [illegible] both on my head and face, and my hair has resumed its natural color, and I believe, more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two has used it with same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly, yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood—*Dear Sir: Having had* the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it to answer to the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

NEW CURES

For Consumption, Liver Complaints, Dyspepsia, and all other Chronic Diseases arising from Over-Use, General Debility, or Nervous Prostration.

These new and successful preparations of Food for the Blood (based upon its analysis in HEALTH, which gives the true standard, and in different DISEASES when we ascertain the deficiencies in each case and supply them with the proper materials for making new and healthy blood) are among the most important discoveries of the age. They are destined to produce a revolution in the treatment and cure of CHRONIC DISEASES. Having a perfect scientific foundation, they are far removed from the sphere of all Nostrums and Patent Medicines. Physicians of all schools are using these PREPARATIONS (not *Medicines*) with the most satisfactory results. They are taken by drops, not spoonfuls.

THEIR RANGE OF CURE:

CONSUMPTION, THROAT DISEASES, BRONCHITIS, COUGHS, COLDS, DYSPEPSIA, LIVER COMPLAINTS, HEADACHES, PALPITATION of the HEART, NEURALGIA, LOSS OF APPETITE, INABILITY TO SLEEP, DEPRESSION, [illegible] IRREGULARITIES and MALE AND [illegible] WEAKNESS, &c. In all cases of complaints peculiar to FEMALES [illegible] will be found invaluable.

THEIR PARTICULAR [illegible]

It is not claimed that they will [illegible] diseases; but those specified [illegible] can testify [illegible]

[illegible] for Dyspepsia. Out of nearly two thousand strongly marked cases there have not been twenty failures.

From numerous testimonials we select the following:

A VERY INTERESTING CASE.

Mr. D. C. ELDER, (of this city,) is well known as one of the most hopeless cases of Consumption. Messrs. HORACE GREELY and W. C. BRYANT, (of the *Tribune* and *Post*,) are familiar with the following facts and circumstances:

Mr. ELDER was actively engaged in the last Presidential campaign, and his intense labors, day and night, broke down his health, which had not been good for many years: this was followed by a severe cough and bleeding from the lungs, which continued down to last December, when he commenced using one of these Preparations. For the previous two months he bled every day, sometimes quite profusely, and his cough was terrible. In a month's time he was able to be about through the city during all weathers, and in less than two months after beginning to use the remedy, he was engaged in canvassing the city, and was on his feet nearly all the time from 9 o'clock in the morning till four in the afternoon, conversing with hundreds of persons and transacting a large amount of business. He is now a hearty looking man as [illegible]. His present residence is [illegible] Hudson street, New York.

Dr. Bronson can be consulted either by letter, addressed to Box 3393, P. O., or at the office of the General Agents from 9 to 12.

These Preparations can be obtained through any respectable Druggist in the United States, [illegible]. Price $1 per Bottle, [illegible]. All orders must be addressed to

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

BININGER'S
OLD LONDON DOCK
GIN

A. M. BININGER & Co.
(Established 1778,)
SOLE IMPORTERS,
No. 338 BROADWAY, N. Y.

This DELICIOUS TONIC

especially designed for the use of the MEDICAL PROFESSION and the FAMILY, possesses those *intrinsic* medicinal properties (Tonic and Diuretic) which belong to an Old and PURE GIN. The business of manufacturing spurious gins, and offering them as *beverages*, under the titles, "Aromatic,"—"Cordial,"—"Medicated," etc., has become so common, that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute. It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a *new era* in the history of the Trade. We trust that our established reputation—founded upon eighty years of experience—abundantly vindicates our claim to public confidence.

N. B.

A comparison of "Bininger's Old London Dock Gin" with others bearing similar names, will establish its superiority, and make other CAUTION unnecessary.

HOWARD ASSOCIATION,
PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a **Charitable Act** worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their forms and to give **Medical Advice Gratis**, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to **Furnish Medicines Free of Charge**. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important and much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. **George R. Calhoun**, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.
